Quantity discounts available, contact us for details.

Species				
Species	Pod	Pollen	Comments	price
				
<i>Paphspicerianum</i>	BoraBora' HCC/AOS	St. Alban's' AM/AOS	The real deal, not one of the imposters that have been floating around the hobby. 'Bora Bora' is an old jungle collected plant. 'St. Alban's' has been around since the 70's, long before the 'tainted' hybrids proliferated across the market. If you want to have a true spicerianum in your collection, this is the flask you need!	\$150.00
				
<i>Paph barbigenum v sulivongii</i>		Sibling cross	A red form of this diminutive species. These have colorful flowers on very compact plants. They can form a specimen in a 4" pot! Should be an interesting influence in breeding for miniature Paphs.	\$150.00
				
<i>Paph wardii (half album)</i>			This cross was made with a very large and full 'type' parent that is 50% album. Crossed to another large sibling we should get 25% album flowers in the progeny. Good examples of the album form have been fairly hard to find and has commanded high prices. Most have lacked vigor. This cross will make large, vigorous greens.	\$150.00

Paph Paradise Summer 2020 Flask List

Hybrids

Hybrid	Pod	Pollen	Comments	price
Paph	 (Hsinying Anita x rothschildianum)	 philippinense 'JEM' AM/AOS	A selected extremely dark pod parent with solid dark petals and an almost solid dark dorsal was crossed to the proven parent philippinense 'JEM'. We should get something resembling a very dark St. Swithin. Should be stunning!	\$150.00
Paph	 Hawaiiin Volcano 'Dolcetto'	 mastersianum	Looking for some wonderful colors here. Greens with a blush overlay. <i>Paph mastersianum</i> will bring heavy substance, a tall stem and glossy texture. A very unique hybrid with great potential. Highly recommended!	\$150.00
Paph	 Blushing Petula 'Sangiovese'	 callosum 'Gamay'	WOW...this is a can't miss cross! Blushing Petula is a big flower and callosum 'Gamay' is huge. The dorsal sepal is almost the size of the palm of my hand. These should raise the bar for burgundy colored Maudiae Paphs.	\$175.00

Paph Paradise Summer 2020 Flask List

<p>Paph</p>	 <p>Temptation album</p>	<p>Lehua's Green Joy' HCC/AOS</p>	<p>This is a cross of two excellent green Paph Temptation plants. The album form of this hybrid is smaller than the type, so it takes up less real estate but still provides an impressive display.</p>	<p style="text-align: right;">\$150.00</p>
<p>Paph St. Swithin</p>		 <p>rothschildianum 'Alan's Choice philippinense 'JEM' AM/AOS</p>	<p>A remake of this ever popular multifloral hybrid. Paph rothschildianum 'Alan's Choice' is another exceptional seedling we found at the Orchid Zone. Alan Koch of Gold Country Orchids pulled it from the bench when he saw it because he was so impressed with it. Paph philippinense 'JEM' AM/AOS has been a proven breeder for excellent hybrids.</p>	<p style="text-align: right;">\$150.00</p>
<p>Paph</p>	 <p>(Prince Valiant x Flash Fire) 'Dark Star'</p>	 <p>California Girl 'Sweetie' AM/AOS</p>	<p>This is a highly desirable cross. The pod parent is a vinicolor complex. Most of these do not breed on well. Crossed to California Girl we expect large vinicolor flowers with good form on tall stems. We are only releasing one flask of these so don't hesitate. These should be outstanding examples of the elusive vinicolor complex.</p>	<p style="text-align: right;">\$ 250.00</p>

Paph Paradise Summer 2020 Flask List

			<p>Two stunning greens crossed to make what should be a sure fire winner. Engraved has amazing wide petals. (Emerald Lake x Imelda Bobadilla) is a select clone from the Orchid Zone. It brings a strong stem and broad dorsal. Only one flask available.</p>	
<p>Paph</p>	<p>Engraved 'Cathy' AM/AOS</p>	<p>(Emerald Lake x Imelda Bobadilla)</p>		<p style="text-align: right;">\$200.00</p>
			<p>Big and round! Both of these parents are very round, with good synsepals. We have broader petals and a purple hue on the pollen parent. The pod parent also has violet tones in the dorsal. It will be interesting to see how much of this color comes through in the progeny. High potential for excellent flowers here. Only a few flasks will be released.</p>	
<p>Paph</p>	<p>Sylvan Vale 'Sparsholt'</p>	<p>(Wendover x Winlantis)</p>		<p style="text-align: right;">\$250.00</p>
