 Send orders or any questions to us at paphparadise@gmail.com or call us at 209-727-5265  
 Quantity discounts available, contact us for details.

<b>Species</b>				
Species	Pod	Pollen	Comments	price
<i>Paph liemianum</i>	 Cabernet'	 Melancia'	Cabernet' is, in our opinion, our best clone. Even better than its sibling that received an FCC last year. We have some of the finest examples of this species in the world in our collection. Here we have chosen to make an outcross with an unrelated plant to increase vigor. <b>SALE PRICE</b>	<b>\$99.00</b>
<i>Paph hirsutissimum</i>	 Lehua's JEM II' AM/AOS	x self	A fantastic example of this spring blooming species. Huge, distinctive flowers on tal stems. This species forms amazing specimen plants that are very easy to maintain. <b>SALE PRICE</b>	<b>\$99.00</b>
<i>Paph argus</i>		sib cross	<i>Paphiopedilum argus</i> is a relatively compact grower with remarkably tall stems. Colorful and very easy to grow. A good beginner's plant for someone new to growing from flask. <b>SALE PRICE</b>	<b>\$75.00</b>

## Paph Paradise Spring 2021 Flask List

<p><b><i>Paph haynaldianum</i></b></p>	 <p>Tavel' AM/AOS      sibling</p>	<p>Tavel' received an AM/AOS on its first bloom. The plant was originally selected for its vigor, the great flower was a bonus! We have crossed it to an intensely colored sibling that is sure to get a much higher AM one day. This cross will produce some of the best haynaldianum ever. <b>SALE PRICE</b></p>	<p style="text-align: right;">\$75.00</p>
<p><b><i>Paph philippinense</i></b></p>	 <p>Paph Paradise'      Syrah'</p>	<p>This is a sibling cross of two of the best examples of this species that we have ever seen. The 'Paph Paradise' clone is truly amazing, with outstanding form and color. Sorry we didn't get a better photo of this one. 'Syrah' has absolutely incredible color. This cross will produce stunning flowers. We are only releasing a few flasks as we want to grow most of these out ourselves. It simply doesn't get any better than this...not to be missed!</p>	<p style="text-align: right;">\$250.00</p>
<p><b><i>Paph lowii</i></b></p>	 <p>Alsace'      Golden Emperor'</p>	<p>Wow! A stunning pastel albescent crossed to one of the finest album (or aureum) forms we have ever seen. 'Alsace' came from across of two half album plants. This cross produced type and albescent, but no albums. Crossed to the 100% recessive gene in 'Golden Emperor' we should see a mixture of pastels as well as pure yellows. The kaleidoscope of colors should be breathtaking. Highly recommended.</p>	<p style="text-align: right;">\$200.00</p>

## Paph Paradise Spring 2021 Flask List

<p><i>Paph henryanum</i></p>	 <p>Beaujolais'</p>	 <p>Richard'</p>	<p>Beaujolais' was the first seedling to bloom from a cross we made several years ago. It is vigorous and has fantastic color, with extra spots through the petals. 'Richard' grows like a weed and has enormous flowers with great form. This outcross should have excellent vigor and top notch flower quality. ***Limited***</p>	<p style="text-align: right;">\$150.00</p>
<p><i>Paph helenae</i></p>	 <p>Auxerois'</p>	<p>Select #1'</p>	<p>We had dozens of these to chose from when we made this cross. We selected two extra vigorous parents with high quality flowers. These should be rapid growers with excellent flowers. <b>SALE PRICE</b></p>	<p style="text-align: right;">\$99.00</p>

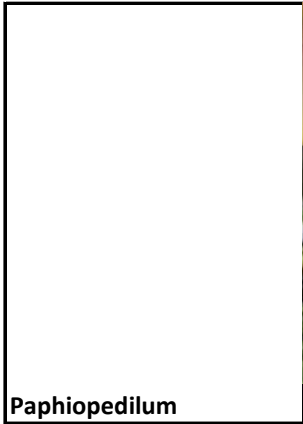

## Hybrids

Hybrid	Pod	Pollen	Comments	price
<p><b>Paph Michael Koopowitz</b></p>	 <p><i>sanderianum</i> 'Paph Paradise'</p>	 <p><i>roebelinii</i></p>	<p>We have remade this classic hybrid between the two long petaled muktifloral species. Paph sanderianum 'Paph Paradise' has fantastic color and had petals close to 70 cm long on its first bloom. The Paph roebelinii parent is award quality, with great color and form. This cross should produce some excellent examples of this hybrid. We expect many awards to come from this cross. <b>SALE PRICE!!!</b></p>	<p style="text-align: right;">\$99.00</p>

## Paph Paradise Spring 2021 Flask List

<p><b>Paph</b></p>		<p>Wellensleyanum 'Gold Country' is a fantastic example of this hybrid. Our leucochilum 'Chianti' has clean color and nice form. This should be an impressive Brachy hybrid. A great beginner's flask since Brachys take up little space and can flower fairly quickly from flask. <b>SALE PRICE</b></p>	<p style="text-align: right;">\$75.00</p>
<p><b>Paph Lady Isabel</b></p>		<p>A remake of this classic primary hybrid with improved parents. Our roth 'Paradise Island' has never been exhibited but is likely a high AM. The flower is huge with bold colors. Paph stonei 'Paph Paradise' has clear color and is a very large flower. This should set a new bar for Lady Isabel. <b>SALE PRICE</b></p>	<p style="text-align: right;">\$75.00</p>
<p><b>Paph</b></p>		<p>Two large yellow and white flowers meet here. The pollen parent has amazing petals, the pod parent has a huge dorsal. An excellent complex hybrid. <b>***Limited***</b></p>	<p style="text-align: right;">\$195.00</p>

## Paph Paradise Spring 2021 Flask List

**Paphiopedilum**

Berenice 'Albescent'

lowii 'Alsace'

This should be a very interesting cross to bloom out. We expect a range of pastel colors...very unusual for multifloral Paphs. A few pure yellows are likely as well. Highly recommended!

\$150.00
