			<i>Paph rothschildianum</i> 'Paradise City' has not been to judging yet, but has the potential to be a strong FCC. The color is outstanding and the form is excellent. 'Paph Paradise' received an 86 point AM/AOS on its first bloom. The petals and sepals are very wide and the color is intense. It is very likely to be upgraded to an FCC on a future bloom. This is a 'can't miss' cross that should produce some of the finest roths ever seen. The reciprocal of the cross we offered in the spring.	
<i>Paph rothschildianum</i>	Paph Paradise' AM/AOS	Paradise City'		\$350.00
			Our best roth crossed to our 88 point AM/AOS that had 7 flowers on its first spike when awarded. Both could be upgraded to FCC's in the future. Expect at least 6 flowers per spike with the potential for more. Another big step forward in roth breeding. There should be many awards from this cross.	
<i>Paph rothschildianum</i>	Paph Paradise' AM/AOS	Tempranillo' AM/AOS		\$350.00

	 <p data-bbox="390 636 749 704">Leonard's Pride 'Petrus' FCC/AOS, SM/CSA</p>	 <p data-bbox="753 587 1155 704">lowii 'Alentejo'</p>	<p data-bbox="1157 289 1717 704">Our Leonard's Pride is simply stunning. Lately it has been in bloom for 8-9 months out of the year. It received an 87 point SM/CSA...I rarely see CSA scores much higher than 81. One judge told me that if all 5 flowers had been fully open it would have scored a gold medal over 90 points. We have tried many times to get this plant to breed and FINALLY we have good germination with one of our very best lowii. Looking for an improved Juliis type flower here. Highly recommended!!!</p>	<p data-bbox="1717 672 1923 704" style="text-align: right;">\$350.00</p>
<p data-bbox="94 672 388 704">Paph Tainan Lebeau</p>	 <p data-bbox="390 989 749 1167">Transdoll 'Cabernet' SM/CSA</p>	 <p data-bbox="753 1097 1155 1167">roth 'Paph Paradise' AM/AOS</p>	<p data-bbox="1157 867 1717 1167">Our awarded Transdoll has amazing color. Crossed to our large, dark rothschildianum 'Paph Paradise' AM/AOS we should see some excellent results. Expect 4 or 5 large, colorful flowers per spike. This is a very similar cross to Paph Lebeau (Transvaal x roth). With improved parents this should rival some of the best Paph Lebeau.</p>	<p data-bbox="1717 1136 1923 1167" style="text-align: right;">\$150.00</p>

Paph Paradise Summer 2022 Flask List

<p>Paph</p>	 <p>Hung Sheng Eagle</p>	 <p>philippinense 'JEM' AM/AOS</p>	<p>Paph Hung Sheng Eagle is (<i>rothschildianum</i> x <i>gigantifolium</i>). It has large flowers with bold stripes and bright red pouches. Paph philippinense 'JEM' AM/AOS has been a proven breeder for us, always giving high quality offspring with great vigor. This cross should produce some excellent results.</p>	<p>\$150.00</p>
<p>Paph</p>	 <p>King Charles</p>	 <p>Ruby Boy Wonder 'Malbec' AM/AOS</p>	<p>This should be an improved version of our Paphiopedilum Paradise in Burgundy cross. The plants will have attractive foliage with flowers ranging from deep pink through burgundy on strong stems. We expect many awards from this cross.</p>	<p>\$150.00</p>
<p>Paph</p>	 <p>Jacob's Dream</p>	 <p>Jacqueline's Sprin Moon 'Viognie'</p>	<p>Jacob's Dream is 62% <i>venustum</i> , with <i>sukhakulii</i> and <i>mastersianum</i> making up the balance. The result was some true yellow color in many of the progeny (sorry about the spray damage in the photo). Crossing this to our largest and fullest green and white should help get some size and form, and hopefully we will capture some bright yellows. An interesting next step in breeding for new colors in Maudiae type Paphs.</p>	<p>\$150.00</p>

Paph Paradise Summer 2022 Flask List

Paph Macrbre Illusion 'Porto' is has the darkest black petals of anything in our collection. The Magically Fred parent is huge, with broad petals. Since the Macabre Illusion has red foliage, all of the offspring from this cross should be vinicolor (dark flowers). However, this is our first cross of a black petal flower to a coloratum type so we just don't know for sure. There are some red tones on some of the leaves in flask but it is too soon to be sure how many will have red leaves.
